

The 8th edition of the

“Rendez-Vous de Concarneau: where Industry meets Science in marine biotechnology”

will take place this year on September 29th and 30th - 2016

The ‘Rendez-vous de Concarneau’ constitutes a series of yearly workshops aiming at promoting relationships and strengthening bridges between industry and academic research, and further at providing technology and knowledge transfer among stakeholders within European marine biotechnologies.

This year’s focus is laid on modern biotechnologies applied on bioremediation, innovative aquaculture systems and biomass production and taxonomy. The conference is a valuable platform to mobilise international cooperations in this young discipline.
