## Indo-Pacific Sicydiine Gobies Biodiversity, life traits and conservation

Philippe Keith, Clara Lord, Ken Maeda

## Contents

Foreword . . . . .	3
Introduction . . . . .	4
Acknowledgments . . . . .	5
<b>I - Taxonomy and phylogeny . . . . .</b>	8
1 – Taxonomy . . . . .	8
2 – Phylogeny and relationships among Sicydiinae . . . . .	10
3 – Evolutionary history and ancestral range of Sicydiinae . . . . .	10
4 – Endemic species: the case of the <i>Smilosicyopus</i> genus . . . . .	12
<b>II - Biodiversity and life traits . . . . .</b>	12
1 – Reproduction and early life stages . . . . .	12
<i>Nidification and spawning</i> . . . . .	12
<i>Larval life and marine phase</i> . . . . .	14
2 – Recruitment and metamorphosis . . . . .	18
<i>Post-larvae and recruitment</i> . . . . .	18
<i>Schooling</i> . . . . .	19
<i>Metamorphosis</i> . . . . .	19
3 – Diet . . . . .	19
4 – Upstream migration and waterfall climbing . . . . .	21
<i>Upstream migration</i> . . . . .	21
<i>Waterfall climbing performance</i> . . . . .	22
5 – Preferential habitats and zonation . . . . .	23
<b>III - Management and conservation . . . . .</b>	25
1 – Threats . . . . .	25
2 – Fisheries . . . . .	25
3 – Climate change . . . . .	26
4 – Recommendations . . . . .	27
<b>The Species . . . . .</b>	29
Akihito Watson, Keith & Marquet, 2007 . . . . .	30
<i>Cotylopus</i> Guichenot, 1863 . . . . .	34
<i>Lentipes</i> Günther, 1861 . . . . .	40
<i>Sicyopterus</i> Gill, 1860 . . . . .	80
<i>Sicyopus</i> Gill, 1863 . . . . .	140
<i>Smilosicyopus</i> Watson, 1999 . . . . .	158
<i>Stiphodon</i> Weber, 1895 . . . . .	172
